

# Validation report

**Document name:** testfile.txt  
**Document hash (SHA-256):** 5099F233917B4E59FC75870DF01EB5F0A784FF6690E43E39311B7F412927DCFB  
**Validation time:** February 13, 2024 at 10:18:41 AM GMT

## Summary of the document validation

The document is validly signed.

The document fulfills the requirements according to the validation rule.

## Information on the applied validation rule

**ID:** urn:intarsys:signlive:policy:AllValidQualifiedEU  
**Beschreibung:** All signatures must be valid and qualified according to EU jurisdiction. The requirements imposed by eIDAS must be fulfilled.

Number of signatures: 1

# Validation details signature 1

<b>Signing time:</b>	February 13, 2024 at 9:38:02 AM GMT
<b>Signer name:</b>	e-integration_2:PN
<b>Signature quality:</b>	Qualified Electronic Signature
<b>Jurisdiction:</b>	DE, EU
<b>LTV-enabled:</b>	no
<b>Validation result:</b>	✓ The signature validation has passed. The signature is valid.

## Integrity of document and signature

<b>Hash algorithm:</b>	SHA-256
<b>Validation result:</b>	✓ The integrity validation has passed. Document and signature are intact.

## Timestamp information

<b>Generation time:</b>	February 13, 2024 at 9:38:02 AM GMT
<b>Issuer:</b>	www.freetsa.org
<b>Validation result:</b>	✓ The timestamp validation has passed.

## Signer certificate information

<b>Issued to:</b>	e-integration_2:PN
<b>Serial number:</b>	127092146495826536519020393431954480982
<b>Serial number (hex):</b>	5F9D0E9BB2E8EC9805382CD8F021DF56
<b>Issued by:</b>	D-TRUST CA 2-21-1 2021
<b>Valid from:</b>	March 11, 2022 at 10:15:20 AM GMT
<b>Valid until:</b>	March 21, 2025 at 10:15:20 AM GMT
<b>Certificate state:</b>	The certificate is not revoked.
<b>Validation result:</b>	✓ The certificate validation has passed. The certificate is valid.

### Note:

This validation report was created using the product Sign Live! cloud suite validator and provides summarized information on validated documents, validation process and validation result. The assessment of available information was performed applying the validation rules stated in this report. intarsys GmbH does not guarantee for the authenticity of this report after transferring it through electronic media, storage or printing.
